INFORMAÇÕES TÉCNICAS | INFORMACIONES TÉCNICAS | TECHNICAL INFORMATION

A Acetinado / Cetinado / Matte **B** Brillhante / Brillante / Shiny **G** Granilha / Granillado / Granular **RT** Retificado / Rectificado / Rectified
AD Maior resistência ao escorregamento. Produto áspero e exige maior manutenção na limpeza / Mayor resistencia al deslizamiento. Producto con superficie áspera y requiere mayor mantenimiento en la limpieza / Greater slip resistance. Product with rough texture, therefore it requires greater maintenance of cleaning.

V1 Variação de tonalidade uniforme. / Variacion de tonalidad uniforme. / Shade variation of uniform appearance.

V2 Variação de tonalidade leve. / Variacion de tonalidad leve. / Slight shade variation.

V3 Variação de tonalidade moderada. / Variacion de tonalidad moderada. / Moderate shade variation.

V4 Variação de tonalidade aleatória. / Variacion de tonalidad aleatoria. / Moderate shade random.

↓ Sentido de assentamento. / Sentido hacia la liquidación. / Way of settlement. **R** Relevo / Relieve / Textured.

LA - Indicados para paredes internas. / Adecuado para las paredes del interior. / Suitable for internal walls.

LB - Indicados para salas, quartos e banheiros residenciais sem acesso para a rua e também locais LA. / Adecuado para salas de estar, habitaciones y baños que no tienen acceso residencial a la calle y LA. / Suitable for rooms, bedrooms and bathrooms without access to the street and also local LA.

LC - Indicados para áreas comerciais sem acesso para rua, ambientes residenciais (garagens e varandas) com acesso para rua, e também locais LB. / Adecuado para áreas comerciales sin acceso a la calle, zonas residenciales (garajes y terrazas) con acceso a la calle, y LB. / Suitable for commercial areas without access to street, residential environments (garages and balconies) with access to the street, and also local LB.

LD - Indicados para áreas comerciais com acesso para rua e também locais LC. / Adecuado para zonas comerciales con acceso a la calle y LC. / Suitable for commercial areas with access to the street and also local LC.

LE - Indicados para calçadas e ambientes externos em áreas planas e também locais LD. / Adecuado para aceras y áreas planas al aire libre y LD. / Suitable for sidewalks and outdoor environments in flat and also local areas LD.

VARIACIONES DE FACES - São produtos desenvolvidos com a tecnologia de impressão digital, desta forma possuem variações de desenhos e tonalidades intencionais para retratar fielmente o produto natural que o inspirou. / **Variaciones de cara** - son productos desarrollados con tecnología en impresión digital, por tanto, tienen variaciones de diseños y tonos intencionales para retratar fielmente el producto natural de inspiración. / **Variations of faces** - These are products developed with digital printing technology, in this way, they have variations of designs and intentional shades to accurately portray the natural product that inspired it.

CARACTERÍSTICAS TÉCNICAS CARACTERÍSTICAS TÉCNICAS TECHNICAL CHARACTERISTICS	NORMA STANDARD ABNT NBR 13818 ISO 13006
Qualidade superficial / Calidad superficial / Quality of surface	Maior ou igual 95% / Mayor o igual 95% / Higher or equal to 95%
Varição dimensional / Variación dimensional / Dimensional variations	Mais ou menos 0,6% / Más o menos 0,6% / Approximately 0,6%
Planaridade superficial / Planitud de la superficie / Flatness of surface	Mais ou menos 0,5% / Más o menos 0,5% / Approximately 0,5%
Absorção de água / Absorción de agua / Water absorption	Entre 6% e 10% / Entre 6% y 10% / Between 6% and 10%
Resistência a flexão / Resistencia a la flexion / Modulus of rupture	Maior que 18 MPa / Mayor que 18 MPa / Higher or equal to 95% 18Mpa
Carga de ruptura / Carga de rotura / Breaking load Espes. maior ou igual 7,5mm / Espesura mayor o igual 7,5mm / Thickness > or = 7,5mm Espes. menor 7,5mm / Espesura menor 7,5mm / Thickness Lower 7,5mm	Maior ou igual 800 N / Mayor o igual 800 N / Higher or equal to 800 N Maior ou igual 500 N / Mayor o igual 500 N / Higher or equal to 500 N
Resistência a gretagem / Resistencia al curteo / Resistance to cracking	Resistente / Resistente / Resistant
Expansão por umidade / Expansión por humedad / Moisture Expansion	Menor ou igual 0,6 mm/m / Menor o igual 0,6 mm/m / Lower or equal to 0,6 mm/m
Resistência a ácidos e alcalis / Resistencia al ácidos y alcalis / Resistance to acids and alkalis	Maior ou igual classe GB / Mayor o igual classe GB / Higher or equal to class GB
Resistência a produtos químicos em bx. concentração / Resistencia al productos químicos em baja concentración / Resistance to chemicals of low concentration	Maior ou igual classe GLB / Mayor o igual classe GLB / Higher or equal to class GLB
Resistência a manchas / Resistencia a las manchas / Resistance to staining	Maior ou igual classe 3 / Mayor o igual classe 3 / Higher or equal to class 3
Coefficiente de atrito (para produtos declarados como antiderrapante) / Coeficiente de atrito (para los productos declarados como Antideslizante) / Coefficient of friction (for products declared as no-slip)	Maior ou igual 0,4 / Mayor o igual 0,4 / Higher or equal to 0,4
Classificação técnica B1b - semi-poroso / Clasificación técnica B1b - semi-poroso / Technical Classification B1b - semi-porous	
Natureza da superfície GL - esmaltado / Naturaleza de la superficie esmaltada / Nature of surface GL- glazed	

ESCOLHA O PRODUTO ADEQUADO PARA SEU AMBIENTE | ELIJA EL MEJOR PRODUCTO PARA SU AMBIENTE | CHOOSE THE SUITABLE PRODUCT FOR YOUR APPLICATION

- PEI - 2 Banheiros residenciais internos / Baños internos de residenciales/Residential internal bathrooms
- PEI - 3 Áreas residenciais sem porta externa / Espacios residenciales sin puerta externa / Residential areas without direct access to exterior areas
- PEI - 4 Todas as áreas residenciais, pequenas áreas comerciais que não tenham portas externas (ex: Salas comerciais de Shopping e Galerias) / Todas las areas residenciales, pequeñas areas comerciales que no tengan puertas externas (ex.: Oficinas comerciales en shopping y edificios) / All residential areas and small commercial areas without direct access to exterior areas (ex: Internal rooms at malls and galleries)
- PEI - 5 Todas as áreas residenciais e comerciais / Todas las areas residenciales y comerciales / All residential and commercial areas

PISO / PISO / FLOORS Os revestimentos usados em pisos são mais solicitados que em paredes. Estão sujeitos ao desgaste, risco, ataque químico, umidade, sujeiras abrasivas, movimento de pessoas, solicitações mecânicas (carga e impacto), etc. Portanto deve-se avaliar o tráfego de pessoas no local, a quantidade de sujeira e outras solicitações antes de escolher o produto mais adequado ao uso. / Los revestimientos utilizados en pisos son más exigidos que los de paredes. Están sujetos a desgaste, rayas, ataques químicos, la humedad, la suciedad, la circulación de personas, el estrés mecánico (carga y el impacto), etc. Por lo tanto, debemos evaluar el tráfico en el sitio, la cantidad de suciedad y otras solicitudes antes de elegir el producto más adecuado para su uso. / The tiles used on floors are more subject to strains than on walls. They are exposed to wear, scratching, chemical attacks, humidity abrasive dirt, footwear traffic mechanical strain, etc. Therefore one should evaluate the intensity of traffic of people on the site, amount of dirt and other issues regarding usage, before making the choice of the most suitable product.

PAREDE/ PARED/ WALLS Em condições adequadas de uso, todos os produtos Carmelo Fior podem ser usados para revestir paredes internas / En condiciones adecuadas de uso, todos los productos Carmelo Fior pueden ser utilizables en las paredes internas / Under appropriate conditions of usage, all Carmelo Fior tiles can be used to internal walls.
